## Testing procedure

#### Step 0: The Google Form

- Google Form (editable)
- Google Form (viewform)

#### Step 1: Explain the test environment

- Ask if the tested person has any experience with virtual reality
- The test can be interrupted at any time if the tested person does not feel well.
- Short explanation of the Vive Controller and HMD
  - o Buttons, HMD adjustments

- (1) Menu Button
- (2) Trackpad
- (3) Home Button
- (4) Batterie-LED
- (5) Safety Cord
- (6) Sensors
- (7) Trigger Button
- (8) Grip Button

#### Step 2: Ease of Learning

- The user has time to get a feeling of each navigation method
- 1. Give the testing person an short introduction of the navigation method
- Let him test the method on its own (stop time) until he thinks he has a feeling for the method
- 3. Repeat 1-2 for every navigation method (teleport, jumping, walking in place, walking by leaning)

#### Step 3: Pick & Place

- The user is teleported into a predesigned room.
- The task is to pick up a Cube and transport it to the other side
- Instruct the testing person that there are various objects located in the map, but his main objective is to reach the other side as fast as possible
- 1. Teleport user to the map
- 2. Set navigation method
- 3. Let him do the task (stop time)
- 4. Answer the questions
- 5. Repeat 1-4 for every navigation method (teleport, jumping, walking in place, walking by leaning)

#### Step 4: Jump'n'Run

- The user is teleported into a predesigned room.
- The task is to pick up a Cube and transport it to the other side
- Instruct that he has three tries to reach the other side of the pit. It does not matter which pillars he uses.
- 1. Teleport user to the map
- 2. Set navigation method
- 3. Let him do the task (stop time)
- 4. Answer the questions
- 5. Repeat 1-4 for every navigation method (teleport, jumping,)

#### Step 5: Ease of Use

- Ask the user how complex he thinks the navigation methods are. Are they hard or easy to use?
- Use the scale of one to five.
- 1. Ask Question for a navigation method
- 2. Repeat 1 for every navigation method (teleport, jumping, walking in place, walking by leaning)

### **Controls Vive**

Nav Method	Controls		
Teleport	Trigger Touchpad	-> Grab or interact with objects -> Activate Teleport	
Jumping	Trigger	-> Grab or interact with objects	
Walking in Place	Trigger Grip Button Touchpad	-> Grab or interact with objects -> Activate Walking in Place -> Scale movement speed	
Walking by Leaning	Trigger Touchpad	-> Grab or interact with objects -> Scale movement speed	
Scaled Walking	Trigger	-> Grab or interact with objects	
Free Mode	Menu Button	-> Change Navigation Method	

# Controls Keyboard

#### **Navigation Methods**

Key	Navigation Method	
Т	Teleport	
J	Jumping	
W	Walking in Place	
L	Walking by Leaning	
S	Scaled Walking	
F	Free Mode	

#### **Target Points / Teleporters**

#	Test type	Navigation Method	Room Number
1	Introduction start zone	-	Room 1
2	Pick & Place	Teleport	Room 2.1
3	Pick & Place	Jumping	Room 2.2
4	Pick & Place	Walking in Place	Room 2.3
5	Pick & Place	Walking by Leaning	Room 2.4
6	Jump and Run	Teleport	Room 3.1
7	Jump and Run	Jumping	Room 3.2
